

NEWS RELEASE

# Aptinyx to Participate in William Blair Biotech Focus Conference 2021

7/12/2021

EVANSTON, Ill.--(BUSINESS WIRE)-- Aptinyx Inc. (Nasdaq: APTX), a clinical-stage biopharmaceutical company developing transformative therapies for the treatment of nervous system disorders, today announced that Norbert Riedel, Ph.D., chief executive officer, will participate in the Updates in Neuropsych panel discussion at the William Blair Biotech Focus Conference on Thursday, July 15 at 12:00 p.m. ET.

A live webcast of the presentation will be available to view on the “Events and Presentations” page in the “Investors & Media” section of Aptinyx’s website at <https://ir.aptinyx.com> and will be archived on Aptinyx’s website for 30 days following the event.

## About Aptinyx

Aptinyx Inc. is a clinical-stage biopharmaceutical company focused on the discovery, development, and commercialization of proprietary synthetic small molecules for the treatment of brain and nervous system disorders. Aptinyx has a platform for discovery of novel compounds that work through a unique mechanism to modulate—rather than block or over-activate—NMDA receptors and enhance synaptic plasticity, the foundation of neural cell communication. The company has three product candidates in clinical development in central nervous system indications, including chronic pain, post-traumatic stress disorder, and cognitive impairment. Aptinyx is also advancing additional compounds from its proprietary discovery platform, which continues to generate a rich and diverse pipeline of small-molecule NMDA receptor modulators with the potential to treat an array of neurologic disorders.
